EXPERIENCE

IIIS – Indraprastha Institute of Information Sciences

New Delhi

Web Development Intern

Feb 2025 – Mar 2025

- Built responsive static and dynamic web pages using HTML, CSS, PHP, and MySQL
- Worked on form handling, database connectivity, and backend logic
- Applied responsive design principles to improve user experience across devices
- Collaborated in a team environment following real-world development workflows

CodSoft (Remote)

Python Programming Intern

Jul 2025 – Aug 2025

- Built web applications using Python and Flask
- Engineered a weather application using API integration and JSON data handling
- Handled backend routing, templates, and application logic

EDUCATION

University Polytechnic, Jamia Millia Islamia

New Delhi

Diploma in Computer Engineering

Dec 2022 – Dec 2025

CGPA: 8.1/10.0

Sun Shine Public School, Zamania

Ghazipur (U.P)

Matriculation (CBSE)

Mar 2022

Percentage: 73.4%

TECHNICAL SKILLS

- Programming Languages:** C, C++, Python
- Web Technologies:** HTML5, CSS3, JavaScript (ES6)
- Backend Technologies:** PHP, MySQL, Flask
- Concepts:** CRUD, REST APIs, Authentication, Responsive Design
- Tools & Platforms:** VS Code, GitHub, Render, Vercel, Cloudinary
- Productivity Tools:** MS Excel (Data Handling), PowerPoint

PROJECTS

SHAN CHAT (AI Chatbot Web Application)

Feb 2026 – Mar 2026

• **Live Demo:** <https://shan-chatbot.onrender.com/>

Tech Stack: Python (Flask), Supabase (PostgreSQL Backend-as-a-Service), Groq API, HTML, CSS, JavaScript

- Built a production-ready full-stack AI chatbot with real-time streaming responses
- Integrated LLaMA-based AI API for fast and intelligent conversations
- Implemented secure authentication using bcrypt and session management
- Designed scalable chat history system using Supabase (PostgreSQL)
- Developed multi-session chat interface with responsive UI
- Deployed on Render with Cloudflare CAPTCHA for enhanced security

Result Management System

Oct 2025 – Nov 2025

Tech Stack: HTML, CSS, JavaScript, PHP, MySQL

- Developed a role-based system (Admin, Faculty, Student)
- Automated result processing and grade calculation
- Implemented secure login, CRUD operations, and validation

Hall Ticket Generation System

Aug 2025

Tech Stack: HTML, CSS, JavaScript, PHP, MySQL

- Built a system for generating and printing student hall tickets
- Implemented admin authentication and database connectivity
